

WAYKIN · ECHO CLIMATE · WK_TOKENS_V0.2

PROPOSED

Issue #132 · PR #135

UI/UX Specification — Visual Companion

The visual half of docs/design/WAYKIN_UIUX_SPEC.md. Every color on this page is a live Echo token — switch your theme to see the indigo-earth night, which is designed, not inverted.

Artifacts are private by default. You can update sharing permissions from here at any time.

Echo palette

Locked in WKTokens.swift; hex parity is test-enforced. Semantic colors never carry state alone — geometry and wording always accompany them.

Foundation
E4E8EC · 12151C

Surface
F7F5F2 · 1E2430

Guide teal
3F8F8A · 4A9E98

Bond gold

The three surfaces

Home as redesigned (spec B3 — the real walk finally gets the primary button), the active session as consolidated (B4), and AR as a full-screen cover with mirrored controls (B6). Push for flow · sheet for asides · cover for immersion.
